# *TeleMonitoring & Your Health*

1. Do you want to have more control of your health from the comfort of your own home?
2. Do you have a medical condition such as CHF/ COPD, a recent surgery, hypertension, or a decrease in strength that hinders your quality of life?
3. Are you unable to travel to a clinic because of your disability?

If you answered yes to any of the above impairments, please call **Nightingale at 866-334-7777**. We will be pleased to discuss enrollment in Nightingale's TeleMonitoring & Your Health programs.

[www.HomeCareForYou.com](http://www.HomeCareForYou.com)

## *How Patients Benefit:*

- 365 days oversight by a nurse on central monitor
- Better compliance with medication and dietary restrictions
- Education and self management of disease process
- Identifies problems before they become a crisis
- Empowerment and involvement with self-care
- Prevents hospitalizations
- Increased sense of security for patients and family members

## *How Physicians Benefit:*

- Physicians can make treatment changes before the patient's condition deteriorates
- Provides daily case management and monitoring of patient data
- Increases patient compliance with medication management
- Hospital-grade equipment provides accurate and reliable data
